NMCGuidelines

The National Medical Commission has made new licentiate regulations for MBBS Abroad that are effective for all admissions that take place in foreign medical institutions on or after 18 Nov 2021.

The subsequent paragraphs provide the gist of the new regulations that are required to be followed for enabling the Foreign Medical Graduates (FMG) to get registration in National Medical Commission and/ or State Medical Councils for practice in India on return from the foreign medical institution.

Essential Criteria

- The duration of the medical course in the foreign medical institution should be a minimum of fifty- four months (four and a half years).
- The FMGs must undergo a mandatory one year rotatory internship in the same foreign medical institution.
- The medium of instructions for the MBBS course in the foreign medical institution must be in English language.
- The FMG must have studied the mandatory subjects (as given in Schedule 1) that fulfill the requirements of education and training equivalent or commensurate with that of an Indian Medical Graduate.
- The FMG should be registered with the respective regulatory body competent to grant license to practice medicine in that country where the institution is located.
- The FMG must clear the NExT or any other examination as mandated by the National Medical Commission.
- The FMG must undergo a supervised internship in India for a minimum period of one year after applying for the same to the Commission in subjects as outlined in Schedule 1.

Exemption of Applicability of the Regulations:

These regulations will not be applicable to:-

- Foreign Medical Graduates who acquired a foreign medical degree or primary qualification, before the implementation of these regulations i.e before 18 Nov 2021;
- Candidates who are pursuing their education in foreign institutions prior to the coming into force of these regulations i.e., 18 Nov 2021;
- Foreign medical graduates who are specifically exempted by the Commission or the Central Government, as the case may be, by notification.
- Foreign Medical Graduates who have acquired a Foreign Medical Degree or any equivalent course, and the candidates who are pursuing their education in foreign institutions, before the implementation of these regulations, shall be governed by the erstwhile applicable regulations.
- The commission has the right to issue a no grant of permanent registration to practice medicine in case the candidate breaks the law upon public policy or national security

Location for conduct of the course:

The entire course, training and internship or clerkship shall be done outside India in the same foreign medical institution throughout the course of study.

Duration of completion:

The total duration of the foreign medical graduation course shall be completed within ten years from the date of joining the course.

FMGE/NEXT coaching

To help our students prepare for FMGE, we provide coaching to our students during their MBBS course. FMGE preparation, along with the MBBS Program, well prepares the students to crack FMGE and to secure a license to practice medicine in India, and live the dream they worked so hard for. For the same, we send Indian professors to Russia so that students can be well equipped with the syllabus, course pattern and the subject knowledge. With this, 70% of Indian students who have studied MBBS in Russia with Mi, cleared FMGE December 2022 in their first attempt

Prepare for Success with Expert Guidance

At MBBS Global, we understand that clearing the FMGE/NEXT examination is a crucial step toward practicing medicine in India. That's why we guide students toward structured preparation resources, expert mentorship, and exam-oriented learning support throughout their medical journey.
